Forecast For Wales
Issued by Met Office Exeter
at 0400 on Saturday 27 Mar 2021

++ Valid for broadcast between 0600 and 1800

Headline:
A few showers through the day before rain tonight.

Today:
A frosty start for many with perhaps some ice too. The morning will see sunny spells and a few wintry showers before cloud thickens from the west through the afternoon with further showers. Windy at times and feeling cold. Maximum temperature 11 deg C (52 deg F).

Tonight:
Heavy rain will move in from the west through the evening, persisting through the night. Winds strengthening with coastal gales reaching further inland at times. Minimum temperature 6 deg C (43 deg F).

Sunday:
A murky day with light rain and drizzle throughout, and some heavier rain over north Wales during the morning. Windy with coastal gales reaching further inland at times. Feeling milder. Maximum temperature 13 deg C (55 deg F).

Outlook for Monday to Wednesday:
Cloud and drizzle clearing on Monday to give clear and dry conditions for the coming period. Breezy at times on Monday before becoming calm. Mild to very mild throughout.
